## PORTFOLIO

---

<https://mozama-portfolio.vercel.app/>

## SUMMARY

---

I am passionate about web development with strong skills in HTML, CSS, Tailwind CSS, and JavaScript. I enjoy building clean and user-friendly websites. I also know n8n and use it for email automation. Always eager to learn, I am ready to contribute my skills to your team.

## EXPERIENCE

---

I have hands-on experience in n8n automation. At [MAK Developers](#) (October 2025 - Present, 1 month), I build smart email automation workflows that include AI agents for auto-responding, bulk/batch email sending, scheduled emails, and trigger-based notifications. In just one month, I have created reliable systems that save the team hours of work every week and help us reply to clients quickly and professionally. I have no front-end development experience yet, but I learn very fast and am ready to give my full effort to any role.

## EDUCATION

---

### BS Digital Media and Communication

2023-2027

Currently at 5th Semester | University Of Punjab, Lahore
